TribNet 2025 Sessions (TrulinX Only)

Recurring Sessions

New Features: We'll be revealing all the great features we have been working on the past year. This will be our most exciting new features session yet!

Horrigan's Helpful Hints: He's back again, but with a longer session at YOUR request!

Executive Level Topics

KPI's – How to Obtain Them in TrulinX: We'll pull real benchmark information from some of our customers' trade associations and show you where to find those indicators in the TrulinX system.

Operations Scorecard: Taking a queue from some of our most brilliant customers, we'll give you a solid example of what things you might measure from an operational standpoint, and how to measure and obtain that information from TrulinX.

On Demand Training: If you haven't yet seen our new video training site, Tribute University, come to this session to learn what it's all about and how you can harness it to maximize your investment in the TrulinX system and empower your employees.

Beginner/New User Topics

New User Essentials: We'll show you some important foundational things to understand about our product that will set you up for a smoother user experience.

Intermediate Topics

General Ledger Mapping: This session is critical for understanding how dollars flow through and post to all your accounts in TrulinX.

Purchasing Tips & Tricks: Come to this session to pick up some lesser known tips to use our purchasing functionality.

TrulinX Air: Come to this session to see our automated warehouse product and how it can benefit your business.

Product Modernization

Enterprise Search: Skip all the inquiries in TrulinX, and use our NEW global search feature to find sales order and purchasing info simply by typing in a keyword or two! We think this will be a game changer for our customers.

TrulinX Dashboard: We'll do a review of how to use the main TrulinX Dashboard, and also introduce you to the first of our role-based dashboards – the CSR dashboard.

Discussion Panels

Production Management User Panel – We'll have users who have been successfully utilizing the PM module here to help answer any real-life application questions. Whether you have already purchased the module, or are simply contemplating it, everyone will benefit from this session.

TrulinX Customer Panel – Back by popular demand, we've assembled some of our most experienced users in the industry to answer questions about best practices, getting around common obstacles. Need some guidance? Come to this session. It never disappoints.

Roundtables

Job Function – facilitated by Support Manager, Rachel Crawford.

IT/Programmer Topics – facilitated by our seasoned developer Don Benson

Executive Level Topics – facilitated by our President, Tom Knoebel.

Networking Sessions

First Time Attendees – if you are attending TribNet for the first time, come to meet other first-timers and make some contacts. You'll also learn the basics of how to navigate the conference for maximum benefit.

Bartender – Come to share your bartender experience, or learn best practices from other Bartender users.

EDI – Come to share your EDI best practices, and learn from others.

NEW THIS YEAR !

This year we are offering classes just prior to the main conference at a **significantly reduced price**! Contact us for pricing, and *register early* by reaching out to Julie Irvin (julie.irvin@tribute.com).

Here are our offerings this year:

Report Designer: This class will walk you through using TrulinX Report Designer to create, design, and modify your financial statements.

Production Management: This class will train you on the full functionality of the module, and give you some things to consider as you begin to set things up.

Report Generator (TRIBUTE USERS ONLY): Learn to write your own reports to pull critical data from your Tribute system.

Friday Morning Consulting Appointments NEW THIS YEAR

Instead of conducting sessions on the last day of the conference, we will have limited one-hour slots open to meet with TrulinX and Tribute consultants to answer questions. We will have laptops to allow us to connect directly to your server, where necessary. These are paid consulting sessions offered at $237. Both Tribute and TrulinX customers can register. Sessions must be paid for prior to the conference.
